06 · CLEAR SPACE AND MINIMUM SIZE

Give the logo room to think.

X = ¼ of the symbol height. Keep at least X of clear space on every side of every logo version. No text, image edge or other graphic may enter this zone. Within a lockup, symbol and wordmark spacing is fixed — never adjust it.

Minimum sizes

Primary (with tagline)	200 px / 50 mm wide
Horizontal	120 px / 30 mm wide
Stacked	64 px / 18 mm tall
Symbol	24 px / 7 mm tall
Below 24 px	Use the simplified favicon symbol

Backgrounds

Light logo on white, transparent or very light neutral grey. Dark logo on Primary Black or very dark imagery. On mid-tone or busy backgrounds use a solid black or white container.

Placement

Prefer the top-left or centre. Align the logo to the layout grid by the outer edge of the symbol, not by the wordmark.
