

Smart Analysis

Turn Your Data Into Smarter Decisions

BRAND GUIDELINES · VERSION 1.0

01 · BRAND OVERVIEW

Turn your data into smarter decisions.

Smart Analysis is an AI-powered data analytics platform that helps people analyse datasets, generate insights, understand patterns, create visualisations and make smarter decisions.

The identity is deliberately restrained: one symbol, two colours and one typeface. Black carries structure and authority; gold marks intelligence and the moments that matter.

Personality

Intelligent · Precise · Clear · Premium · Trustworthy

The identity system

Symbol — the S + AI Brain mark
Wordmark — Smart Analysis in Inter Bold
Palette — Primary Black #0B0B0B and Premium Gold #D4AF37
Typeface — Inter

02 · THE SYMBOL

One letter. One mind.

The mark combines exactly two elements: the letter **S** and an **AI brain**.

The S and the brain are woven into one form. The brain's front lobe arches over the head of the S, the S's tip cuts under the brain's edge into its interior, and the brain's last lobe tucks back under the S at the spine. Neither element can be lifted out without the other — the S's upper bowl is the brain.

From the centre of that bowl a hub sends three circuit traces to three nodes: data entering the brand (the S) and leaving as structured reasoning (the brain).

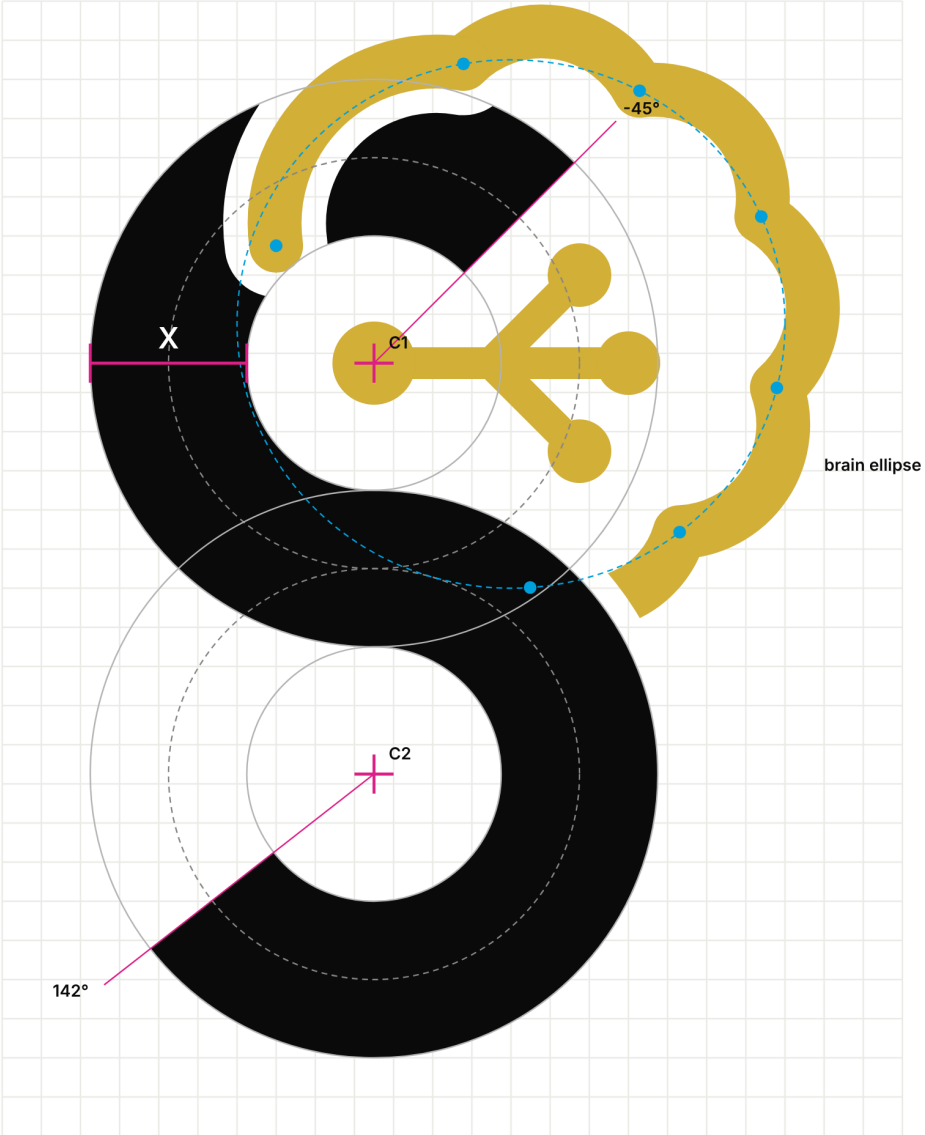

What it communicates

Artificial intelligence — the brain and its circuit
Data analysis — signals branching from a single source
Clarity and precision — geometric circles, consistent strokes, solid colour

Never add

Additional letters, arrows, charts, sparkles, robot heads, gradients or 3D effects.

Built on circles and a single measure.

LOGO CONSTRUCTION

S + AI Brain symbol

Grid	8-unit module. The symbol is 153.2 × 215.4 units (ratio 1 : 1.41).
X	S stroke width = 32 units = 14.9% of symbol height. X is the master measure.
Letter S	Two tangent circles C1 / C2, centreline radius 42 (1.31 X), meeting on the spine.
Terminals	Upper terminal cut at -45° so the tip ends inside the brain; lower terminal at 142°.
AI brain	Six lobes (arcs) on a 56 × 54 ellipse, contour 11 units (0.34 X).
Interlock	The front lobe arches over the S head, the S tip runs under the brain, the last lobe tucks under the spine. Gap at every crossing: 5 units.
Circuit	Traces 6.5 units (0.2 X) radiate from a hub Ø17 at C1 to three nodes Ø13: one forward, two at 45°.
Colour	S #0B0B0B · brain, traces and nodes #D4AF37. Solid fills only.

centres, angles, X — brain ellipse + lobe joints — centreline

04 · LOGO VERSIONS

Four layouts, one geometry.

A · Primary logo — symbol, wordmark and tagline

C · Stacked

B · Horizontal

D · Symbol only

Use the primary logo where there is room for the tagline; the horizontal logo for headers and navigation; the stacked logo for square or centred formats; the symbol alone once the brand is established (app icons, avatars, favicons). The tagline is optional and is dropped below 200 px / 50 mm logo width.

05 · COLOUR VERSIONS

Black and gold, nothing else.

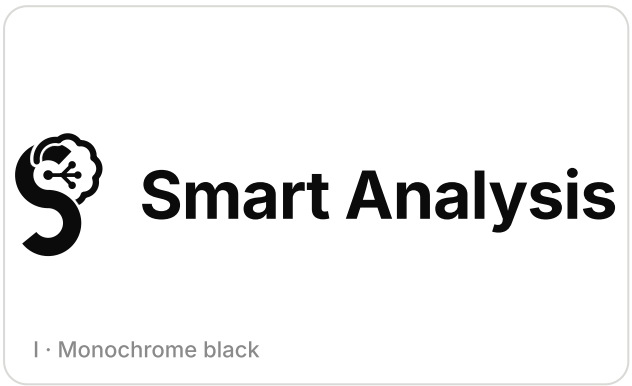

G · Light background — black + gold

H · Dark background — white + gold

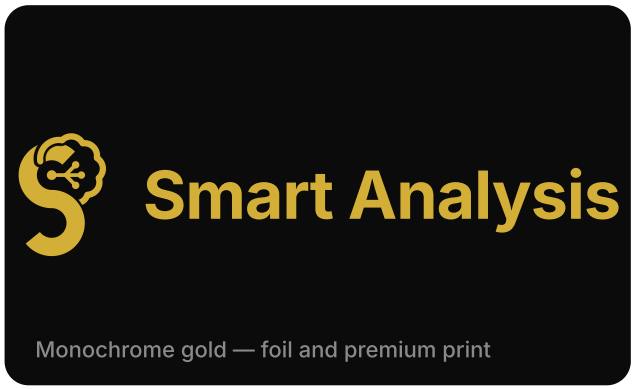

Gold S with black AI brain

I · Monochrome black

J · Monochrome white

Monochrome gold — foil and premium print

The black-and-gold logo on white is the default. On black, switch the black elements to white and keep the gold. Use single-colour versions where only one ink is available — documents, engraving, embossing, foil, fax or one-colour print.

06 · CLEAR SPACE AND MINIMUM SIZE

Give the logo room to think.

X = ¼ of the symbol height. Keep at least X of clear space on every side of every logo version. No text, image edge or other graphic may enter this zone. Within a lockup, symbol and wordmark spacing is fixed — never adjust it.

Minimum sizes

Primary (with tagline)	200 px / 50 mm wide
Horizontal	120 px / 30 mm wide
Stacked	64 px / 18 mm tall
Symbol	24 px / 7 mm tall
Below 24 px	Use the simplified favicon symbol

Backgrounds

Light logo on white, transparent or very light neutral grey. Dark logo on Primary Black or very dark imagery. On mid-tone or busy backgrounds use a solid black or white container.

Placement

Prefer the top-left or centre. Align the logo to the layout grid by the outer edge of the symbol, not by the wordmark.

07 · MISUSE

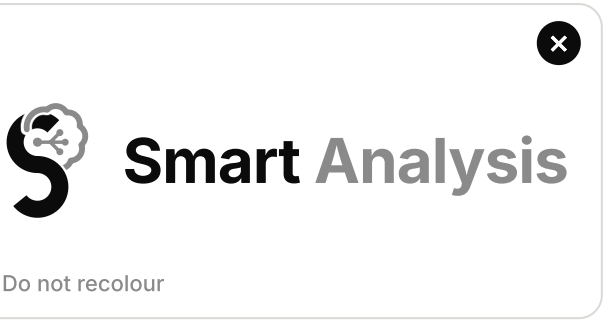

Protect the mark.

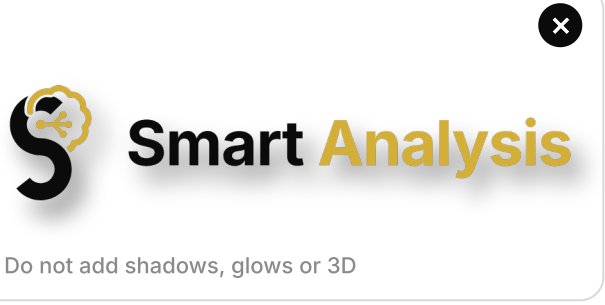

Do not stretch or distort

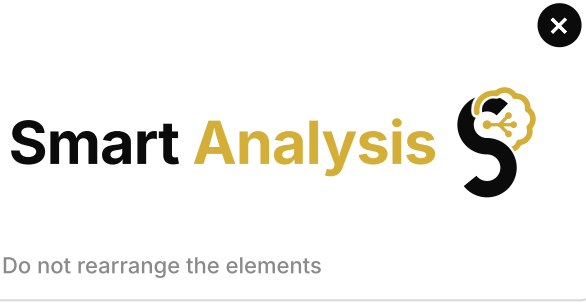

Do not rotate

Do not recolour

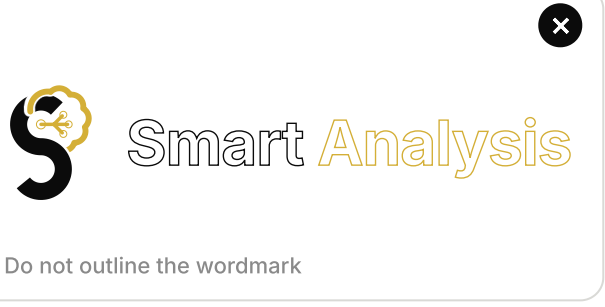

Do not add shadows, glows or 3D

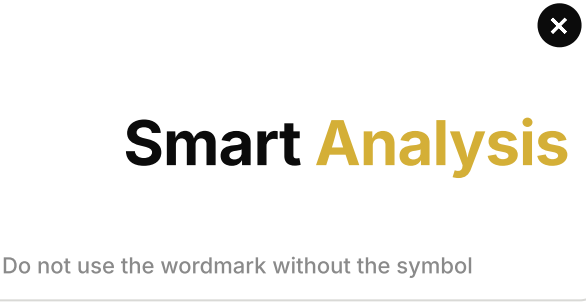

Do not rearrange the elements

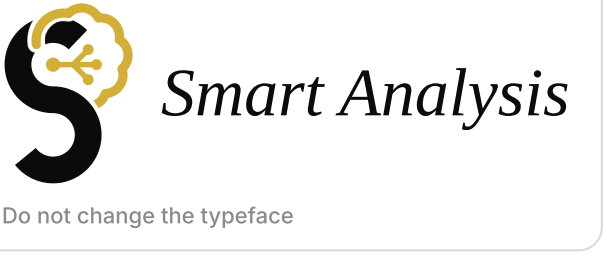

Do not place [illegible] busy backgrounds

Do not outline the wordmark

Do not use the wordmark without the symbol

Do not change the typeface

A strict two-colour palette.

Primary Black

HEX	#0B0B0B
RGB	11 · 11 · 11
CMYK (rich black)	60 · 40 · 40 · 100
CMYK (text / small)	0 · 0 · 0 · 96
Pantone	Black 6 C (closest)

Premium Gold

HEX	#D4AF37
RGB	212 · 175 · 55
CMYK	0 · 17 · 74 · 17
Pantone (metallic)	871 C — or gold foil
Pantone (solid)	7562 C (closest; proof before print)

White
#FFFFFF · backgrounds, reversed type

Neutral grey
#F2F2F1 · preview backgrounds only

Proportion

≈ 60 white/space · 30 black · 10 gold

Contrast (WCAG 2.x)

Black on white	**19.7 : 1**	All text sizes
Gold on black	**9.4 : 1**	All text sizes
Gold on white	**2.1 : 1**	Logo and large display only — never body text

Rules

Black is structure: type, the S, backgrounds. Gold is meaning: the AI brain, the word *Analysis*, a single highlight or rule per layout. Never introduce blue, green, purple, red or any other accent. Master artwork uses flat fills; metallic gold is reserved for physical finishes and presentation mockups.

Inter, and only Inter.

Display · Bold 700	**Smarter decisions**
Heading · Bold 700	**Understand every pattern**
Subhead · Medium 500	Turn Your Data Into Smarter Decisions
Body · Regular 400	Analyse datasets, generate insights and visualise results in seconds.
Label · SemiBold 600	AI-POWERED ANALYTICS

Wordmark

Smart	Inter Bold, black (white on dark)
Analysis	Inter Bold, Premium Gold
Tracking	−1.5% (−15 / 1000 em)
Tagline	Inter Medium, +1% tracking
Case	Title case, as shown — never all caps

Usage

Headlines	Bold 700, −1 to −2% tracking
Subheads	Medium 500 or SemiBold 600
Body	Regular 400, 140–160% leading
Labels	SemiBold 600, uppercase, +15–20%
Fallback	Arial / Helvetica (email, Office)

Inter is free under the SIL Open Font License — rsms.me/inter. The logo files use outlined type and need no font installed.

Simplified for small sizes.

App icon · primary

App icon · gold

App icon · light

Simplified symbol

Below 24 px and inside icon containers the symbol uses heavier strokes (S 36, brain 15 units), four lobes and a single circuit trace. Same silhouette, same colours — fewer details.

Containers

Rounded square, corner radius 22.37% of the side (iOS superellipse approximation). The symbol fills 62% of the container height and is optically centred. A full-bleed square master is supplied for platforms that apply their own mask.

11 · BUSINESS CARD

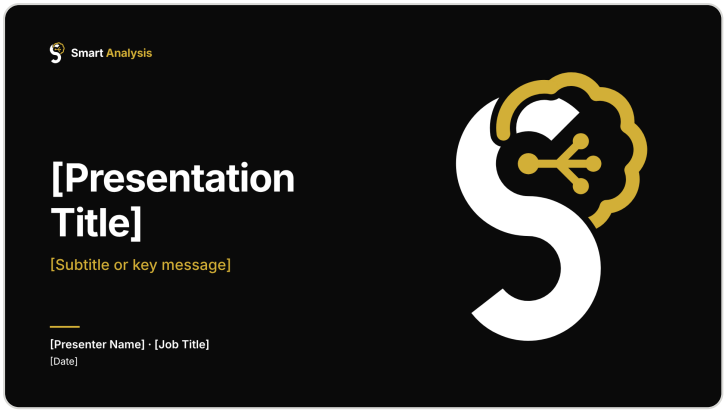

90 × 50 mm, double-sided.

Trim size	90 × 50 mm
Bleed	3 mm each side (96 × 56 mm)
Safe area	3 mm inside trim (84 × 44 mm)
Front	Stacked logo + tagline, white + gold on black
Back	Name, title, contact, QR code
Stock	400–600 gsm uncoated or soft-touch
Finish (optional)	Gold foil for the AI brain and “Analysis”
Black	Rich black 60/40/40/100 for the front flood
